New Owner of Hair Xtreme

VN Staff.....

Kim West, manager of Hair Xtreme, officially became the Aveda hair salon owner on October 1, 2006. West and her parents, Bob and Sandy Noble, approached Shannon Jenkins, who started the salon nine years ago, to see if she was interested in selling.

Kim West, new owner of Hair Xtreme.

"It was an opportune time for me," said Jenkins. "Daryl and I decided to follow our passion. I am so excited for Kim." Daryl is Jenkins' husband and was business manager for the salon. West had been wanting to open her own salon. "Daryl and Shannon have given me so much education

[about the business]," she said. "I was real uncomfortable about asking, but I did and she [Jenkins] made me feel so comfortable."

Bob Noble will serve as business manager. This is his first venture into business of his own. West's plans are to keep things largely the same. "Naturally, there will be changes in business, but nothing major," she said.

The Aveda salon has seven stylists that work with a successful business plan of a team salon. West said their mission and vision statement will remain the same. "We are still going to pamper people," she said.
